MUSIC ANNUAL MEMBERSHIP MEETING SESSION DESCRIPTIONS

The State of MUSIC

The MUSIC Staff will take some time to bring you up to date on the continued success of your program through the end of 2017, our plans to address a few of the savings opportunities in 2018, and present practical ideas on how members can take better advantage of the services offered. We will also walk you through the current state of the insurance marketplace and how it interacts with a large self-insurance pooling program like MUSIC. We think you will walk away being very glad to be part of this member-owned organization!

Something Old, Something New, Something Borrowed, Something Blue-Green

We will provide an update on four items we have been talking about recently:

1. Contents Valuation
2. Website
3. SafeSchools
4. Environmental Coverage

Suicide Prevention in Schools

In the age of social media, live streaming, and constant news coverage; school administrators are forced to add “spokesman” to their resumes. Lawyer, journalist, public relations consultant, and now graduate level professor, Geri Dreiling has built her career helping law firms and other clients determine what to say, when to say it, and how to move forward after a crisis occurs. We will discuss how to identify a crisis, plan for it, communicate with different audiences, and how to put a crisis management plan into action.

When Volunteers Aren't Free

Parents, community members, PTOs, and even staff members frequently organize and participate in events or projects to benefit the school or your students. Whether it is building a concession stand, a charity fund raiser, or hosting a car wash, there is always the chance someone may be injured during the activity. When it's time to pay the medical or wage loss, should workers' compensation apply? Did your volunteer become your employee? This session will explore what happens next, what are the rules, and most importantly, what can you do?

The Awaken Project

The Awaken Project was founded several years ago by President, Joe Richardson formerly of the Boston Red Sox and his partner, Jeff Mozingo. The mission of this organization is to heighten the awareness of students, parents and staff on drug abuse and the heroin epidemic in our country and schools. The session has some staggering and personal information about the power of opioids and how quickly they become addictive and the many young lives lost to their power. These speakers reach out to our community and have spoken at 95 schools in 4 states in the past 3 years. Their mission is to educate kids in the risks involved, the power it holds, and offer alternatives to help our students make good choices.

Ask The Experts

This session has become an annual event. We'll put our defense lawyers on the spot and you'll get some free legal advice. Remember to submit your questions to the panel.

I Heard a Rumor - Now What?

Rumors, anonymous tips, social media posts...information about a potential staff-student relationship may be initially received through a variety of unreliable sources and can be difficult to substantiate. We will discuss the top 5 legal tips to follow when addressing rumors of a staff-student relationship.

How To Avoid The Evening News: Sexual Harassment and Schools

Sexual harassment in the workplace is leading news coverage across the nation. In today's climate, school administrators must be increasingly vigilant and responsive to allegations of staff misconduct. We will provide the attorney's perspective on critical red flags and developing best practices around identifying hostile or sexually harassing behavior, receiving and investigating complaints, considering methods of prevention, and understanding the potential risk for future liability and damages.
